

# ARWIL PARAISO

**Address:** San Antonio, Los Baños, Laguna, Philippines, 4030  
**Phone:** 09657839801  
**Email:** nezraprogrammer@gmail.com  
**Linkedin:** <https://shorturl.at/KRNad>

## SUMMARY

---

I am a Frontend Developer and a third-year university student who seeks a challenging role where I can use my technical skills, my attention to details, and my passion for language technology. I command English very well and have gone through structured data, interface design, and software development, bringing analysis and precision that are all good for annotation and quality evaluation tasks. I look forward to contributing to AI training initiatives, gaining more experience in natural language processing (NLP), and working with a global team. My flexible schedule as committed to accuracy and a pretty perfect fit for remote research work in a fast-paced environment like e2f.

## WORK EXPERIENCE

---

**Volunteer Frontend Developer, Laguna State Polytechnic University - Los Baños Campus** **Jan 2025 - Present**

- Led frontend development for the extension project program of other stakeholders in the community
- Collaborated with cross-functional teams to design and implement user-friendly web interfaces
- Utilized modern frontend technologies (e.g., HTML, CSS, JavaScript) to build responsive and accessible applications

## EDUCATION

---

**Bachelor of Science in Computer Science** **Aug 2023 - July 2027**

Laguna State Polytechnic University - Los Baños Campus

- Major in Intelligent Systems
- Current a 3<sup>rd</sup> Year Student
